PERSONAL PROFILE

I am an enthusiastic and self-disciplined front-end developer with 3 years of experience. I am proficient in web development technologies such as JavaScript, PHP, CSS and HTML plus modern libraries and frameworks for responsive website design. I am organized, task-oriented with precise attention to detail, and skilled at writing well-designed, testable, and efficient code using current best practices in Software Development.

EXPERIENCE

Junior Front-end Developer

Oct 2022 – Present

One Sure Insurance

London, UK

- Developed a new website for the company coordinating with the marketing team regarding the design.
- Developed a custom WordPress plug-in to change the phone numbers displayed on the marketing source and used forms to collect the customer data for call-backs.
- Using Git and GitHub for version control and share code between team members.

Junior Web Developer

Aug 2019 – Oct 2022

Freelance Developer / Consultant

London, UK

Key Responsibilities:

- Developing, optimizing, and maintaining websites to meet my client's needs and goals.
 - Implemented content management and security resource tutorials to assist end-user training.
 - Designed responsive templates to ensure as many leads as possible.
- Devised various custom responsive WordPress sites from design comps that included advanced WordPress features, such as Custom Post Types, Advanced Custom Fields, and WordPress Customize APIs.
- Developing clean, maintainable, object-oriented code on all client projects.

Core Tools:

- PHP, JavaScript, HTML, CSS, SASS, RESTful APIs, Bootstrap, GULP, MySQL, WordPress, Figma, and Git & GitHub.

Student Ambassador

Jan 2021 – Dec 2022

Staffordshire University London

London, UK

- Documented my student experience through video, written, and social media content - I have shared my study and social life at Staffordshire University with new and current students.

SKILLS

- **Industry Knowledge:** Wireframing, Web Development, DNS Management, Debugging, and Version Control Systems.
- **Technical Skills:** PHP, Laravel, JavaScript, HTML, CSS, SASS, RESTful APIs, Bootstrap, GULP, MySQL, WordPress, Figma, and Git & GitHub.
- **Communication:** I used effective communication and active listening in all my modules at the university and

in my part-time job as a waiter. At my part-time job, I was able to offer good customer service, raise the team's self-esteem and motivate everyone around me to deliver the best job possible even though it is not my area of expertise.

- **Teamwork and Collaboration:** I was responsible to coordinate a small group of students to work towards the development of a commercial software for a pet shop company. This project was developed to enable the administrator/owner of the business to manage the stock of products, employees, and customer data.
- **Problem-Solving and Organisation:** I developed a template for a college website following government-style guidelines and managed to solve the website issues in terms of responsiveness and accessibility.
- **Languages:** English, Portuguese.

EDUCATION

Computer Science, Staffordshire University London

Sep 2021 – Jun 2024

Bachelor's Degree

London, UK

- Developed wireframes and mock-ups and turned them into functional front-end experiences with an eye for UI and UX best practices. Additionally, developed applications using PHP and the Web Development technology stack.
- Developed a WordPress Blog from scratch without using any templates, also developed several landing pages to practice performance, SEO, and CSS animations.
- Notable Modules: Object-oriented Programming (95), Data Structures and Algorithms, Software Development and Application Modelling (95), Web Development (94), and Server-Side Programming.

HE Access to Computing QAA recognized

Sep 2018

Kingston College, South Thames College Group

London, UK

- Achieved a total of 39 Distinctions and 6 Merits of 45 total credits in Computing.

Computer Technician integrated with High School, A levels / GCSEs

Dec 2017

Federal Institute of Education, Science and Technology of South of Minas Gerais

Brazil

- Developed the new college website template following the government style guide, the web development technology stack, and using Joomla! as Content Management System to be used for the marketing team.
- Notable Modules: Web Development, System Analysis, Programming, Databases, and Networking.

VOLUNTEER WORK

Teaching Assistant

Dec 2017

Federal Institute of Education, Science, and Technology of South of Minas Gerais

Brazil

While in High School, I had the privilege of teaching English lessons to students with learning difficulties during their lunch break. I prepared a 1-hour lecture with intuitive activities to facilitate the learning of a new language.
